

[illegible][illegible]

so I recommend learn 3 and 2 plus CAGED, you get a lot of freedom when you see many ways to follow an interval

I show the 7 columns twice, because you might start on a later column and need to cycle back into the earlier ones

[illegible]

ii	V	I	IV	vii	iii	vi	ii	V	I
i	iv	iii	vi	vii	iii	vi	ii	V	I
iii	vi	ii	V	I	IV	vii	iii	vi	ii

pentatonic with diatonic system

The diagram illustrates a musical system, likely a scale or a set of intervals, represented by a grid of colored squares. The colors used are purple, yellow, green, blue, and red. The grid is organized into rows and columns, with some cells containing Roman numerals (I, II, III, IV, V, VI, VII) indicating specific musical intervals or degrees. The top section is labeled "pentatonic with diatonic system". Below it, a smaller section is labeled "aligned region". The main grid consists of 10 rows and 10 columns. The first row contains the following colors: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The second row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The third row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The fourth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The fifth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The sixth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The seventh row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The eighth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The ninth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow. The tenth row contains: purple, yellow, green, blue, purple, yellow, green, blue, purple, yellow.

The image displays three musical diagrams illustrating the construction of the C major scale using solfège syllables and fingerings. Each diagram is set against a grid background.

Diagram 1 (Top): Shows the C major scale starting on C (Do). The notes and their corresponding solfège syllables and fingerings are: C (Do, I), D (Re, IV), E (Mi, V), F (Fa, I), G (Sol, VII), A (La, III), B (Si, VI), and C (Do, I). The notes are arranged in a descending staircase pattern from left to right.

Diagram 2 (Middle): Shows the C major scale starting on F (Fa). The notes and their corresponding solfège syllables and fingerings are: F (Fa, I), G (Sol, IV), A (La, V), B (Si, I), C (Do, VII), D (Re, III), E (Mi, VI), and F (Fa, I). The notes are arranged in a descending staircase pattern from left to right.

Diagram 3 (Bottom): Shows the C major scale starting on G (Sol). The notes and their corresponding solfège syllables and fingerings are: G (Sol, I), A (La, IV), B (Si, V), C (Do, I), D (Re, VII), E (Mi, III), F (Fa, VI), and G (Sol, I). The notes are arranged in a descending staircase pattern from left to right.

explicit pentatonic applications (again the point is to not have to memorize these)

major

minor

other pentatonic positions
