

doesn't work for CAGED diatonic

allows shredding patterns × 3 more for each start note being the first second or third on the string

so 21 patterns, but easier to memorize even then normal shredding

simplifies CAGED pentatonic

if you can learn to modify when you go between 4th and 5th string, that extra effort pays off enormously because you have far fewer fingerings to memorize

so I recommend learn 3 and 2 plus CAGED, you get a lot of freedom when you see many ways to follow an interval

diatonic

I show the 7 columns twice, because you might start on a later column and need to cycle back into the earlier ones

1	2	3	4	5	6	7	8	9	10	11	12	13	14	1
I	IV													
		vii	iii	vi	ii	V	I	IV						
ii	V	I	IV						vii	iii	vi	ii	V	I
iii	vi	ii	V	I	IV						vii	iii	vi	ii
						vii	iii	vi	ii	V	I	IV		
													vii	iii

x	x													
		yd	y	z	z	x	x	x						
x	x	y	y						yd	y	z	z	x	x
				z	z	x	x	x	y	y				
x	x	y	y	z	z						z	z	x	x
						x	x	x	y	y	z	z		
													x	x

x, y, and z show three types of patterns on a string

pentatonic uses subset with 2 notes per string

includes CAGED pentatonic

		3	4	5	6	7	3	4	5	6	7	3
								iii	vi	ii	V	I
		iii	vi	ii	V	I						
I										iii	vi	ii
ii	V	I										

								tu	t	s	s	s
		tu	t	s	s	s						
s									s	s	s	
				s	s	s	t	t				
s	t	t										

s and t show two types of patterns on a string

pentatonic with diatonic system

A 3x3 grid of musical triads in G major, showing the progression of chords: I-IV-V in the first row, ii-V-I in the second row, and iii-vi-iii in the third row. Each chord is represented by a colored square with its Roman numeral and a small letter indicating the triad type (major or minor).
